

201 Stainless Steel Cable Tray Manufacturer

AI Overview

SS201 cable trays are available from multiple reputable manufacturers including CARPEL, OBO Bettermann, INTERFLEX, Superfab Inc, and Apex Tray. Key Brands and Manufacturers

CARPEL, OBO Bettermann, INTERFLEX: These brands are listed on DirectIndustry as leading suppliers of stainless steel cable trays, including SS201, SS304, and SS316L options, offering wire mesh, ladder, and solid-bottom designs suitable for industrial and commercial applications.

Superfab Inc: Offers a wide range of stainless steel cable trays, including SS201, designed for durability, corrosion resistance, and heavy-duty cable management. Their trays are compatible with modular accessories like bends, tees, and covers, and are suitable for indoor and outdoor environments.

Apex Tray: Provides guidance on selecting SS201 cable trays for dry, indoor environments where corrosion risk is low. They emphasize SS201 as a cost-effective option for standard applications, with low nickel content and manganese reinforcement for strength.

Global B2B Marketplaces: Platforms like Tradewheel and Atkore International connect buyers with manufacturers of stainless steel cable trays, including SS201, allowing for customized solutions and international shipping.

Considerations for SS201 Cable Trays

Material Properties: SS201 is the most economical stainless steel option, suitable for dry, indoor environments. It has lower corrosion resistance compared to SS304 and SS316L, making it ideal for areas with minimal exposure to moisture or chemicals.

Applications: Commonly used in commercial buildings, offices, and industrial facilities where cost efficiency is important and corrosion risk is low.

Installation and Accessories: Many manufacturers provide pre-drilled, modular trays compatible with bends, tees, and covers, facilitating quick installation and flexible cable management.
