

24-Port 10 Gigabit Industrial-Grade Redundant Switch

Overview

With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these modular switches are your foundation for industrial AI. Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to-performance ratios. Cisco's C1200-24FP-4X is a high-performance 24-port Gigabit managed switch with an additional 4 10G SFP+ ports for versatile connectivity. Managed with Cisco Catalyst Center or Cisco. • Connects up to 24 network devices - PCs, printers, and servers - to share and transfer files and videos across your network • Power over Ethernet easily and cost-effectively powers wireless access points, video cameras, and other network-connected endpoints • Simplified, web-based management for. The ONV-IPS36248FM-8G is a 10G uplink L2+ managed industrial Ethernet fiber switch independently developed by ONV. It has 20*10/100/1000Base-T RJ45 ports and 4*1/10G uplink SFP+ fiber ports. Each port can support wire-speed forwarding.
