

48-core fiber optic cable one junction box

Overview

The SJ-ODB-48-SMC is a 48 cores fiber optic termination box designed for efficient fiber optic cable management in FTTH and FTTx network installations. 48 Core Fiber Optic Junction Box, Joint Closure Fiber Optic Splicing Description This splice closure integrates distribution and splitting in one, can realize the direct fusion and branching of the optical cable, and is suitable for the wiring connection in the optical communication equipment. It is widely applied to the splicing and distributing variable optical cables by aerial, duct and buried. Durable, waterproof, and designed for easy splicing. To adopt engineering PC plastic with high-strength to make the closure has longer life time and.
