

50kWh lead-acid battery cabinet for safe city applications

Overview

With 50kW rated power and 50kWh usable energy, this all-in-one system features IP54 ingress protection, ensuring safe operation in outdoor settings with protection against dust and water splashes. The GCB-E50 is a fully integrated outdoor energy storage cabinet designed for commercial and light industrial applications requiring reliable performance in challenging environments. Their development was aimed at limiting the emission of hydrogen into the atmosphere and to avoid the use of liquid electrolyte. The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and. This 50kW/50kWh battery system includes ten LiFePO₄ modules, a 50kW inverter, and a smart EMS/BMS, all housed in a compact IP54 cabinet. Built for commercial use, the system is robust, space-efficient, and. Core Specifications: 100kWh/50kW (Rated charge/discharge power 50kW, rated energy includes two configurations: 112. Operation and Performance Data Power Grid and Inverter: Three-phase four-wire power grid type, compatible with. Deye Inverter; Rated grid voltage AC380V, grid. SafeReliable CATL LFP battery cell Double fire suppression system design 1+1 redundancy. The battery cabinet has 2*50KWH (51. 2kwh) battery SimpleUser-friendly Pre-installed in the factory for easy installation on-site Integrated BMS/EMS, sui 1+1 redundancy.
