

Argentina Metal Cable Tray Price Quote

AI Overview

Metal cable tray prices in Argentina range from approximately \$2 to \$25 per meter, depending on material, type, size, and finish, with bulk orders potentially reducing costs significantly. Price Overview Cable tray pricing in Argentina is influenced by material type, surface treatment, tray dimensions, and order quantity. Typical price ranges per meter are: Galvanized steel: Most common, balancing durability and cost, generally on the lower end of the \$2-\$25 range. Stainless steel: Higher corrosion resistance, more expensive than galvanized steel. Aluminum: Lightweight and rust-proof, priced above steel but suitable for corrosive environments. Wire mesh trays: Cost-effective for lightweight wiring, often cheaper than ladder or perforated trays. Surface treatments also affect pricing: hot-dipped galvanized (HDG) is more durable outdoors but costs more, powder coating adds protection and color options, and pre-galvanized is cheaper but less durable in corrosive areas. Ladder trays generally cost more than perforated or wire mesh trays due to higher load capacity. Market Context in Argentina The Argentine cable tray market is shaped by inflation, currency volatility, and raw material costs, which can impact final pricing. Domestic manufacturers benefit from local knowledge and import substitution policies, while international suppliers offer specialized technology. Compliance with IRAM standards is mandatory for safety and installation, influencing both domestic and imported products. Wire mesh cable trays are a growing segment, with stainless steel wire mesh being the largest and fastest-growing category. Supplier Options Jeetmull Jaichandlall (P) Ltd.: Offers galvanized cable trays in various sizes, shapes, and colors, adhering to industry standards and providing tailored solutions for industrial and construction projects. Local distributors and importers: Can provide bulk pricing, technical support, and integration with other cable management systems. Cost-Saving Tips Bulk orders can reduce per-meter costs by 20-40%. Switching tray type...
