

Bahrain Optical Cable Price Inquiry

AI Overview

Optical fiber cable prices in Bahrain vary by type, length, and supplier, ranging from retail options like \$5–\$15 for short consumer cables to bulk wholesale prices for industrial-grade cables.

Retail Prices For consumer-grade optical fiber cables, such as the Hama Optical Fibre Cable 3m Black, prices are available from local retailers like Sharaf DG, typically ranging around \$5–\$15 per unit depending on length and specifications (e.g., 3 meters, single-mode or multi-mode).

Wholesale and Bulk Pricing For bulk purchases or industrial-grade optical fiber cables, Bahrain has verified suppliers and manufacturers offering competitive rates. Prices depend on cable type, tonnage, and technical specifications. Platforms like go4WorldBusiness list multiple suppliers providing bulk discounts and negotiated deals for large orders.

Market Trends and Export Data Bahrain's optical fiber cable market has shown moderate growth in production, with exports primarily directed to Saudi Arabia and the UAE. The average export price per ton has fluctuated but generally shows an upward trend over recent years, reflecting global demand and material costs. In 2024, Bahrain imported \$3.63M worth of optical fibers and cables, mainly from China, France, and Poland, indicating active trade and competitive pricing.

Strategic Considerations

- Customization:** Market reports and suppliers can provide tailored quotes based on cable type, length, and quantity.
- Bulk Orders:** For large-scale projects, contacting wholesale suppliers directly can yield better pricing and delivery terms.
- Quality Standards:** Ensure cables meet international standards for optical performance, especially for telecom or industrial applications.

For an accurate and up-to-date price quote, it is recommended to contact local suppliers or distributors directly, specifying the required cable type, length, and quantity. This approach ensures the quote reflects current market conditions and any bulk discounts.
