

Benin AI Artificial Intelligence Server

Overview

AI is a strategic national platform aligned with Benin's Artificial Intelligence and Big Data Strategy (SNIAM 2023–2027). We are building a sovereign, ethical, and inclusive AI ecosystem in partnership with local innovators, global institutions, and the African diaspora. Our sovereign AI. As of April 2026, 22 African governments have published national AI strategies, 21 are drafting, and 49 endorsed the Kigali declaration. The pace of formal policy activity is measurable and documented. This strategy was officially adopted by the Council of Ministers on 18. Artificial Intelligence (AI) has become a field of strategic importance that can represent a major driver of economic development, as well as a lever for strategic positioning, both regional and international, with multiple sectorspecific opportunities. As such, AI is an issue of key importance for. Non-profit organisation working for a safe and ethical digital future in Africa. Benin's Stratégie Nationale d'Intelligence Artificielle et des Mégadonnées (SNIAM) 2023–2027, adopted in January 2023 and led by the Ministry of Digitalisation, sets a five-year framework to harness artificial intelligence and big data. It aims to support development, innovation and skills by.
