

Bhutan Optical Cable Equipment Price

AI Overview

Optical cable prices in Bhutan vary widely depending on type, core count, and supplier, with market rates typically obtained through direct supplier quotations or import data.

Overview of Optical Cable Pricing in Bhutan

The cost of optical cables in Bhutan is influenced by several factors, including cable type (single-mode or multi-mode), core count (e.g., 4-core, 24-core), and specifications such as ADSS or armored cables. For example, buyers in Bhutan have requested competitive pricing for 24-core single-mode ADSS fiber cables and associated accessories like joint closures and rack-mountable FODPs, indicating that procurement is often handled through tender or quotation-based processes rather than fixed retail prices.

Market and Import Trends

Bhutan imports most of its fiber optic cables, and market analysis shows that import prices are tracked through shipment records and consulting reports, which provide insights into average costs, top exporting countries, and buyer trends. Subscription-based reports from Volza Consulting or 6Wresearch offer detailed pricing and market forecasts, typically starting at \$1000–\$1500 for access to import and market data. These reports are useful for businesses seeking to understand regional pricing trends and potential cost ranges.

Procurement Options

Direct Supplier Quotations: Many Bhutanese buyers request competitive quotes from international suppliers for specific cable types and lengths, which is the most common method to determine actual purchase prices.

Official Schedule of Rates: Bhutan's Ministry of Information and Communications publishes a Schedule of Rates for electrical and telecommunication materials, which may include indicative prices for optical cables, though these are often suggestive and subject to market fluctuations.

Market Reports: Subscription-based market intelligence reports provide detailed pricing, import trends, and forecasts, helping businesses plan procurement and budget for optical cable projects.
