

Burundi Low-Voltage Distribution Box Installation Company

AI Overview

ERTEC Ltd and Weza Power are leading companies in Burundi for low-voltage distribution box installation and electrical infrastructure projects. Key Companies ERTEC Ltd (Burundi) ERTEC Ltd has extensive experience in low-voltage (LV) and medium-voltage (MV) installations, including overhead and twist cable systems on wooden and metallic poles. They have executed projects such as 60 km of LV network rehabilitation in Kamenge Zone, installation of LV and public lighting, and electrification of community colleges. ERTEC also handles substation installation, HV/MV line construction, and solar energy projects, making them a versatile provider for both urban and rural electrification projects in Burundi. Weza Power Weza Power is a national electricity distribution company working closely with the Government of Burundi and REGIDESO. They focus on expanding reliable, affordable, and sustainable electricity access, including last-mile connections to homes, schools, and clinics. While primarily a distribution company, Weza Power also manages infrastructure that includes low-voltage connections, ensuring communities receive consistent power for lighting, medical equipment, and small businesses. Additional Resources Electrical Installation Directories: Platforms like Cybo list multiple electrical installation businesses in Burundi, which can be filtered by services such as LV distribution box installation. Low-Voltage Switchgear Buyers & Importers: Volza provides a directory of 239 active low-voltage switchgear importers and buyers in Burundi, including top companies like FABRIMETAL Burundi, which may also offer installation services or supply LV equipment. General Electrical Companies: Listings on Electricals Informed provide information on companies supplying low-voltage switchgear and electrical components, which can be useful for sourcing both equipment and installation expe...
