

CIF Price of 200kW High-Frequency Switching Power Supply Exported to Sudan

AI Overview

The estimated CIF price for a 200kW high-frequency switching power supply exported to Sudan ranges from \$45,000 to \$60,000, depending on supplier, shipping method, and insurance coverage.

Product Overview A 200kW high-frequency switching power supply is a high-efficiency, compact device used for industrial, battery charging, and renewable energy applications. It typically features high-frequency switching, thermal stress management, and components such as transformers, inductors, capacitors, and semiconductors to ensure stable output and reliability. These units often have 95% efficiency, IP54 rating, and CE certification, making them suitable for international export.

Export Pricing FOB (Free on Board) Price: Based on global export data for high-power switching supplies, the FOB price for a 200kW unit generally ranges from \$40,000 to \$55,000 depending on manufacturer and specifications. CIF (Cost, Insurance, Freight) Price: Adding shipping and insurance to Sudan, CIF prices typically increase by 10–15% over FOB, resulting in an estimated \$45,000 to \$60,000 per unit. This includes ocean freight from major ports in China or India and standard marine insurance coverage.

Shipping and Logistics Considerations Port of Entry: Port Sudan is the main seaport for imports. Clearance and handling fees may apply. Shipping Time: Sea freight from Asia to Sudan usually takes 3–5 weeks, depending on the port of origin. Insurance: Marine cargo insurance is recommended to cover risks during transit, including damage or loss.

Additional Notes HS Code: High-frequency switching power supplies are generally classified under HS Code 85044010, which may be used for customs and tariff calculations. Import Duties: Su...
