

Cable bracket price for fiber optic cable wells

AI Overview

Fiber optic cable brackets typically range from \$10 to \$50 per piece, depending on type, material, and application. Price Overview Fiber optic cable brackets and clamps are essential for securing and managing fiber optic cables in wells, poles, or distribution points. Basic storage and coiling brackets for fiber optic cables are available starting at around \$10 per piece for standard models used on poles or tensile towers. More specialized fiber optic brackets designed for splice protection, strain relief, or mounting in enclosures can range from \$20 to \$50 per piece, depending on size, material, and configuration. Types and Materials Materials: UV-resistant thermoplastic, galvanized steel, aluminum alloy, and stainless steel. Types: Storage and coiling brackets: Used to store surplus cable in splice boxes or on poles. Fiber optic clips and holders: Secure cables without damage, suitable for telecom, datacom, and industrial applications. Mounting brackets: Provide organized installation in cable wells or enclosures, often compatible with adhesive pads or screws. Factors Affecting Price Material quality: Stainless steel and aluminum alloy brackets are more expensive than thermoplastic options. Capacity: Brackets that hold multiple splices or larger cable diameters cost more. Application: Outdoor or harsh environment brackets with corrosion resistance and UV protection are priced higher. Supplier and customization: OEM or custom configurations can increase cost, but suppliers often provide quotes based on specifications. Supplier Options MefiberOptic: Offers a wide range of durable, cost-effective brackets and clamps for FTTx networks. Essentra Components US: Provides fiber optic holders, clips, and brackets with free CAD drawings and sample options. All Well Import & Export: Supplies storage and coiling brackets suitable for poles and towers. For acc...
