

Cable tray horizontal elevation tee

Overview

Horizontal Tees link three 10" straight channel sections or compatible transitional fittings, enabling the creation of a sleek and efficient horizontal branch within a fiber routing system. Item code: HT Reducing Tee: $W1 > W2$. Item code: HTR Expanding. Cable tray tee fittings are designed to create these branch connections while maintaining cable support, structural continuity, and installation efficiency. This rigid fitting maintains the structural integrity and load capacity of the cable tray system while facilitating cable routing around corners, obstacles, or layout. CleanTray Wireway right-angle installations for two 90-degree turns in frequent washdown areas. This 90-Degree Tee CleanTray, CT44TICSS item measures 4.00in with a material of SS304 finish Brushed.
