

Cable tray steel grating

Overview

Material Selection – Choose stainless steel or FRP gratings for high-corrosion areas and metal or PVC raceways for electrical safety. We carry a full range of off the shelf stock panel sizes. Incidunt ut labore et dolore magna aliqua quis ipsum suspendisse ultrices gravida. Risus commodo viverra stainless. GERPAAS cable trays are manufactured in accordance with the EN 61537 standard. Material & finish options offered in standard are hot dip galvanized, pregalvanized, stainless steel (AISI 304 & 316), aluminum, epoxy paint coating. Our gratings are used for many applications such as steel flooring, access walkways, balconies, platforms, facades and much more. Stainless steel cable trays have sturdy structure, resist rust and they are specified for cable containment and cable support in oil, gas, petroleum. Gratings & Raceways play a crucial role in structural safety and cable management across various industries. Raceways are protective cable management.
