

Canadian Cable Tray Fabrication

AI Overview

Canada offers a robust cable tray fabrication industry with CSA-approved aluminum and steel trays, ladder, perforated, and solid-bottom designs, supplied by leading manufacturers like Unitray, Superior Tray, ZipTray, Code Electric, and Niedax CER. Leading Manufacturers and Products Unitray is a prominent Canadian manufacturer specializing in aluminum cable trays, offering CSA-approved Class C, D, and E trays in standard lengths of 3m, 5m, and 6m. Their fabrication facility uses state-of-the-art CNC sheet metal equipment, enabling high-quality, customizable solutions for industrial, mining, and energy projects, including ladder, perforated, and solid-bottom trays, all engineered for durability and easy installation (Unitray). Superior Tray provides a wide range of steel and aluminum trays, including ladder, solid-bottom, and perforated types. They cater to commercial, industrial, and telecommunications projects, offering both standard and custom solutions with a focus on safety and performance standards (Superior Tray). ZipTray emphasizes lightweight, fast-installation systems that require no drilling, making them suitable for projects where speed and simplicity are critical. Their trays are designed to compete with established brands like B-Line and Thomas & Betts (ZipTray). Code Electric manufactures aluminum and steel ladder trays, wire mesh/basket trays, and instrumentation channels, with rapid delivery across Western Canada. Their products are widely used in mills, marine terminals, factories, high-rises, data centers, and office buildings, offering solid or ventilated bottoms for efficient cable distribution (Code Electric). Niedax CER, part of the Niedax Group, provides CSA-approved cable management systems including ladders, trays, basket trays, and channel trays. They focus on innovation, quality, and collaborative product development, serving infrastructure, IT, and energy sectors with over 30 years of Canadian market experience (Niedax CER).
