

China U-shaped cable tray price quote

AI Overview

U-shaped cable trays in China are available from approximately \$0.40 to \$4 per meter, depending on material, volume, and supplier. Price Range and Materials Steel U-channel trays: Heavy-duty, durable, and suitable for industrial applications; prices can start as low as \$0.40/meter for high-volume orders from suppliers like Zhonghe Steel (Tianjin) Co., Ltd. and may increase with stainless steel or powder-coated finishes for corrosion resistance and fire safety compliance. Aluminum trays: Offer a balance of strength and corrosion resistance; generally priced moderately higher than steel for similar dimensions. PVC trays: Lightweight, corrosion-resistant, and easy to install; typical pricing is around \$4/meter, with flexibility for cutting and modification. Supplier Options Bulk and factory pricing: Suppliers like Qionghai and Czhonghu offer competitive factory quotes and bulk purchasing options, often with FOB, CIF, or EXW trade terms. Customization: Many manufacturers, including JLH Electric, provide custom sizes, perforated or solid-bottom trays, and various coatings to meet project-specific requirements. Volume discounts: Larger orders can reduce unit costs by 20–30%, especially for steel or aluminum trays. Additional Considerations Compliance: Ensure trays meet relevant standards such as IEC 61537 or local building codes. Installation and maintenance: U-channel trays are easy to install, inspect, and maintain, reducing long-term labor costs. Shipping and delivery: Confirm estimated delivery times and freight charges with suppliers; sample requests may incur courier fees. For a precise quote, it is recommended to contact suppliers directly with your required dimensions, material preference, and order volume to receive updated pricing and shipping details.
