

# Costa Rica company that makes fiber optic splitters

## AI Overview

There are currently no fiber optic splitter manufacturers based in Costa Rica, but international suppliers serve the local market. Local Manufacturing Landscape According to industry directories, Costa Rica does not have any registered manufacturers of fiber optic splitters. While the country has a growing telecommunications sector and is actively upgrading its infrastructure for 5G and high-speed broadband, local production of specialized components like splitters is not yet established. International Suppliers Serving Costa Rica Several international companies provide fiber optic splitters and related components to Costa Rica: Kocent Optec Limited: A Hong Kong-based manufacturer offering high-durability fiber optic termination products suitable for Costa Rica's tropical climate. They supply IP67-rated connectors, tactical fiber cables, and FTTA solutions to major local carriers such as ICE, Liberty, and Claro. Montclair Fiber: A global supplier of fiber optic splitters, including in-stock and high-density custom options. They provide end-to-end solutions for optical networks, including CWDM, DWDM, OADM, and FTTH deployments, and can ship products to Costa Rica. Market Context The Costa Rican fiber optic components market is expanding, with demand for splitters, connectors, transceivers, and other optical components growing due to digital transformation and smart city initiatives. While local manufacturing is limited, the market relies heavily on imported components from international suppliers to meet infrastructure needs. Recommendations For businesses or projects in Costa Rica seeking fiber optic splitters: Engage with international suppliers like Kocent Optec or Montclair Fiber for high-quality splitters and custom solutions. Monitor local market developments, as Costa Rica's telecom sector is rapidly evolving and may attract future local manufa...
