

Custom-made stainless steel cable trays in Europe

AI Overview

Stainless steel European-style cable trays typically range from \$50 to \$250 per meter, depending on size, configuration, and stainless steel grade.

Overview The cost of stainless steel cable trays varies based on several factors:

- Material Grade:** Higher grades like 316 stainless steel, which offer superior corrosion resistance, are more expensive than 304 stainless steel.
- Tray Type and Width:** Wire basket trays (50–600 mm wide) are generally more cost-effective than solid or perforated trays.
- Length and Accessories:** Standard lengths are usually 2–3 meters, but custom lengths, bends, and lids increase the price.
- Supplier and Volume:** Bulk purchases often qualify for discounts, and some suppliers like Electrix offer large discounts for direct orders.

Typical Price Ranges

- Small wire basket trays (50–200 mm width): Approximately \$50–\$100 per meter.
- Medium trays (200–400 mm width): Around \$100–\$180 per meter.
- Large trays (400–600 mm width or heavy-duty configurations): \$180–\$250 per meter.

Additional Considerations

- Installation Costs:** Fast-installation designs reduce labor costs, but mounting brackets, hangers, and supports may add to the total project cost.
- Environmental Factors:** Stainless steel is preferred for corrosive, outdoor, or hygienic environments, which may justify higher upfront costs due to long-term durability.
- Customization:** Many suppliers provide custom lengths, perforations, or lids, which can affect pricing.

For precise pricing, it is recommended to request a quote directly from suppliers such as Eurostrut, CEF, Electrix, or Ekabel24, as prices fluctuate based on specifications, quantity, and shipping.
