

Distribution Box Protective Flame-Retardant Cover

Overview

The highly durable material made of HR glass fabric with a special FR silicone coating withstands extreme temperatures and is flame-resistant. They provide reliable protection against flame exposure from both outside and inside. Our fire protection hoods are designed for preventive fire protection in the storage and logistics of flammable media, as well as for the protection of valuable goods. The rugged nylon housing withstands up to 160A current while resisting and wear, ensuring reliable. DERFLEX is a professional fire retardant cover manufacturer supplying flame resistant covers for industrial, construction, welding, transportation and safety protection applications. Certified fire retardant materials, factory direct supply. Guangdong Province (Foshan) provides.
