

Distribution box kp

AI Overview

Distribution box KP refers to a series of electrical distribution boxes designed to organize, protect, and manage multiple electrical circuits in residential, commercial, or industrial installations.

Overview and Purpose A distribution box KP is a central component in electrical systems that safely distributes electricity from a main source to multiple circuits. It houses protective devices such as circuit breakers, fuses, and relays, ensuring safety for users and equipment by preventing overloads, short circuits, and electrical faults. These boxes are used in homes, offices, industrial facilities, and specialized systems like the Automatic Loader System of the T-72 tank.

Common KP Models and Specifications

- Kanlux KP-DB-I-MS-324**
Module capacity: 3x24P modules (72 modules total)
Rows: 4 horizontal rows for modular installation
IP class: IP30, protected against solid objects >2.5 mm, limited moisture protection
Protection class: Class I, requiring a protective conductor
Standards: Complies with PN-EN 62208
- Kanlux KP-DB-I-MF-418**
Module capacity: 4x18P modules
Material: Metal enclosure suitable for modular DIN rail installation
Applications: Residential and commercial installations
- Kanlux KP-DB-I-MF-624**
Designed for: Public and office buildings, extensive residential installations
Features: DIN rails for modular components, robust metal construction
- KP175-3C**
Industrial use: Critical sub-assembly in the Automatic Loader System of T-72 tanks
Function: Houses relays and contactors, controls automatic loading sequences, and communicates with related sub-assemblies

Key Features

- Safety:** Includes grounding bars and overcurrent protection to prevent electrical hazards.
- Modularity:** Supports DIN rail-mounted components for flexible installation.
- Durability:** Metal enclosures provide impact resistance and long service life.
- Versatility:** Suitable for indoor and outdoor use depending on IP rating and model.
- Compliance:** Many KP boxes meet international standards like PN-EN 62208 for electrical enclosures.

Applications

- Residential:** Managing circuits for lighting, appliances...
