

# Dominic Shopping Mall Cable Tray Installation Price

## AI Overview

The installation cost of Dominic cable trays typically ranges from \$5 to \$50 per meter depending on material, type, and installation complexity.

**Material and Tray Type Costs**

- Steel Cable Trays:** Standard hot-dip galvanized or pre-galvanized steel trays cost \$5–\$25 per meter. They are durable and suitable for indoor commercial environments like shopping malls ( ).
- Aluminum Trays:** Lightweight and corrosion-resistant, aluminum trays cost \$6–\$30 per meter and are ideal for areas with higher humidity or exposure to chemicals ( ).
- FRP (Fiberglass Reinforced Plastic) Trays:** These are more expensive, ranging \$10–\$50 per meter, offering long-term durability in aggressive environments ( ).
- Stainless Steel Trays:** The most durable and corrosion-resistant, suitable for high-demand areas, though typically at the higher end of the price range ( ).

**Installation Considerations**

- Labor Costs:** Installation is faster than conduit systems because cables can be laid directly on open trays, reducing labor time and cost ( ).
- Accessories:** Supports, brackets, connectors, and mounting clips add to the total cost. Dominic-specific accessories are available through suppliers and can vary depending on the configuration ( ).
- Tray Length:** Standard tray lengths are often 2.4 meters, and pricing for fittings is per piece ( ).

**Budgeting for a Shopping Mall**

For a large facility like a shopping mall, the total cost will depend on:

- Total linear meters of tray required
- Material choice (steel, aluminum, FRP, or stainless steel)
- Complexity of installation (ceilings, raised floors, or multi-level routing)
- Quantity of accessories (elbows, tees, supports, and mounting hardware)

Using these factors, a rough estimate for a mall installation could range from \$10,000 to \$50,000 or more, depending on the scale and material selection. For precise pricing, contacting Dominic suppliers or local electrical contractors for a custom quote is recommended.
