

Dubai is building fiber optic cables

AI Overview

Dubai has become a major hub for fiber optic cable manufacturing and innovation, with companies producing advanced solutions for telecommunications, energy, and critical infrastructure. Key Manufacturers and Innovations

Naficon Fiber Optic Manufacturing LLC operates in Dubai as a major supply and manufacturing center for the Middle East, offering high-quality fiber optic products for telecom, data centers, and utilities. The company emphasizes local production to ensure timely delivery and reliability while leveraging Finnish expertise in fiber technology.

Arabian Fiber Optic Cable Manufacturing LLC (AFOC) is another leading UAE-based manufacturer, producing durable, high-bandwidth fiber optic cables for telecommunications and large-scale infrastructure projects. Their facilities incorporate advanced technology from Switzerland and Germany, with state-of-the-art R&D and testing labs to ensure global standards and future-ready network solutions.

Ducab Group has introduced the GCC's first High Voltage (HV) Fiber Optic Cable, combining high-voltage power transmission with fiber optic monitoring. This cable enables real-time monitoring of temperature, strain, and performance, enhancing grid stability and efficiency. It is manufactured using 98% recycled materials and aligns with Dubai's Clean Energy Strategy 2050 and Net Zero by 2050 initiatives.

FOSS LLC specializes in fiber optic cabling for large-scale airports, data centers, and high-security environments. Their expertise includes precise installation, OTDR testing, and integration with IT and security systems, ensuring robust and reliable high-speed communication networks across the UAE.

Industry Impact

Dubai's fiber optic initiatives support high-speed internet, smart city infrastructure, and energy-efficient power grids. The combination of local manufacturing, advanced R&D, and sustainable practices positions the UAE as a regional leader in fiber optic technology. These developments also facilitate mission-critical applications in sectors such as oil & gas, renewables, industrial oper...
