

East Asia Cable Tray Fireproof Price Inquiry

AI Overview

Fireproof cable trays from East Asian manufacturers typically range from \$0.96 to \$1.50 per meter for bulk orders, with prices varying based on material, coating, and order volume.

Price Range and Factors

Bulk Pricing: Large orders (e.g., 10,000 meters) can cost as low as \$0.96 per meter (Weifang Guqiang), while smaller bulk orders (e.g., 2,000 meters) may be around \$1.50 per meter (Guangdong Lianbiao).

Material Influence: Stainless steel and aluminum are common, with FRP (fiber-reinforced plastic) or PVC fiber optic trays commanding higher prices due to specialized properties.

Coating and Finish: Powder-coated or epoxy-finished trays for corrosion resistance or outdoor use may slightly increase costs.

Customization: OEM or factory-direct options allow tailored dimensions, load capacities, and designs, which can affect pricing.

Supplier Examples

Shandong Hongfeng: Offers stainless steel and aluminum trays, including trough, wire mesh, and large-span types, with ISO 9001, SGS, and CE certifications. They emphasize low price while maintaining quality.

Other Manufacturers: Guangdong Yuchang and Wuxi Dongyide provide mid-range pricing with powder coating or epoxy finishes, suitable for industrial and commercial projects.

Additional Considerations

Volume Discounts: Ordering larger quantities significantly reduces per-meter cost.

Project Requirements: Environmental conditions (corrosion, fire resistance, indoor/outdoor use) and cable type (communication, power, control) influence material choice and cost.

Shipping and Import: Costs may vary depending on destination, shipping method, and import duties.

In summary, expect fireproof cable trays from East Asian manufacturers to cost roughly \$1 per meter for large orders, with variations based on material, finish, and customization. Contacting suppliers directly for quotes is recommended to secure the best pricing for your spe...
