

Egypt Smart Micro-module Factory

Overview

Egyptian firm Kemet has signed a deal with Chinese solar manufacturer GCL Technologies to build a 5GW solar cell and module manufacturing hub in the country. Raspberry Pi is a tiny-sized computer that offers a powerful platform for building innovative projects. Surface Mount Device (SMD) components. When Petroleum and Mineral Resources Minister Karim Badawy announced that Egypt intends to localize the production of electronic chips and solar cells using domestic raw materials, it marked more than a policy statement — it was a signal of strategic intent.
