

Explosion-proof distribution boxes for smart buildings wall-mounted

Overview

For installation of signal and power distribution networks in explosion hazardous areas, various types of terminal boxes and junction boxes are available. They are certified according to the latest ATEX and other international standards, types of explosion protection include Ex e, Ex. Q: What are the advantages of the Explosion-proof wall-mounted distribution box?

A: The Explosion-proof wall-mounted distribution box adopts a wall-mounted design, which is flexible and convenient to install. It can be installed on walls, columns, etc. Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2. Its robust construction ensures reliable operation in explosive atmospheres, such as those found in oil, gas, and chemical. Warom specializes in manufacturing explosion-proof electrical equipment, with products covering explosion-proof lighting fixtures, explosion-proof distribution boxes, explosion-proof control equipment, explosion-proof motor switches, explosion-proof cable connectors, explosion-proof air. ● This series of products have 3 types of explosion protection (Ex db IIB, Ex db IIB+H2 and Ex tb IIIC), which can meet the requirements of various places; ● Explosion-proof electrical apparatus is completed with: Miniature circuit breaker (MCB), molded case circuit breaker (MCCB), residual-current.
