

Fiber optic cable bidding prices decline

Overview

In the first half of 2026, fiber optic cable prices are unlikely to experience major changes and are expected to remain relatively stable. The market size was valued at USD 38. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. For many professionals who have worked in the optical. The latest special optical cable procurement bids from China Mobile saw top-tier manufacturers quoting at ceiling prices, ending the era of price wars and signaling the return of pricing power to suppliers. Long-term Visibility: Demand visibility is high. North American tech giants continue to. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. D) have risen by 40-60% since Q1 2025, with spot market prices doubling in some. Coupled with the continued decline in optical fiber and cable prices, some companies are facing operational risks. In the past few years, there have been numerous.
