

Fiber optic cable brackets and supports for communication wells

Overview

Durable aerial hardware for fiber utility and telecom builds, including brackets, straps, J-hooks, clamps, grounding, and mounting solutions for pole line and aerial cable support. Essenta Components offer a comprehensive range of fiber optic holders, brackets and clips designed to keep fiber optic cables organized and secure. Our products are made with high-quality materials and are available in different configurations to meet the specific needs of our customers. The optional adapter fitting provides an economical. Optical Distribution Network (ODN) is composed of OLT and user equipment interconnected by optical fibers, splitters, and connectors, with downstream signal streams coming to the user interfaces and upstream signal streams for OLT processing purposes. Used under the heads of bolts, nuts, and other threaded products to provide a broader bearing surface and increase the. For Fiber-To-The-Home (FTTH) applications, we provide a wide range of hardware to support last-mile connectivity. Drop Cable Clamps – Ensuring proper cable tension and stability.
