

Fiber optic cable from East Africa

Overview

The EASSy project is an initiative to construct and operate a submarine fibre-optic cable along the east coast of Africa to connect 20 coastal and land-locked countries to each other and to the rest of the world. With a focus. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy,” said Jessica Gu, Director & Chief. The project concerns the deployment of fibre optics networks in regions of Eastern Africa where, either these kinds of networks are not available, or they are expensive and unreliable. In both cases, the development of digital services enabled by broadband access is limited. Liquid Dataport is a dedicated international wholesale division of Liquid.

Mideast Africa Frustrating Israel, fiber-optic killer drone technology has arrived in southern Lebanon By Agnese Stracquadanio Tuesday, Jun 23, 2026

Project Brief

The EASSy is an initiative to construct and operate a submarine fiber-optic cable along the east coast of Africa to connect 20 coastal and land-locked countries to each other and to the rest of

High Power Coated Fiber Optic Cable Market Size Report 2026

The "High Power Coated Fiber Optic Cable Market" prioritizes cost control and efficiency enhancement. Additionally, the reports cover both the demand and supply sides of the market.

fiber optics cable Competitive Strategies: Trends and

The fiber optics cable market is booming, driven by 5G, data centers, and high-speed internet demand. Explore market size, growth trends, key

Multimode Duplex Fiber Patch Cable Market Outlook: Strategic

The Multimode Duplex Fiber Patch Cable Market is growing at a CAGR of 4.1% from 2026 to 2033, reflecting a robust trajectory amid the increasing reliance on fiber optic solutions in various

EAST AND CENTRAL AFRICA OPTICAL FIBER ROLL-OUT

The project concerns the deployment of fibre optics networks in regions of Eastern Africa where, either this kind of networks are not available, or they are expensive and unreliable. In both

Gulf states race to build overland data cables to Europe

Saudi Arabia, Qatar, and the UAE are financing six competing fiber-optic corridors through Syria, Iraq, and East Africa to reduce dependence on

Fiber Optic Cables for the Last Mile Market 2025-2030: Industry Sees ...

Companies Target Hybrid Fiber Strategies to Meet Global Connectivity Demands in Diverse MarketsDublin, April 14, 2025 (GLOBE NEWSWIRE) -- The "Fiber Optic Cables for Last Mile

Submarine communications cable

7 – Petroleum jelly 8 – Optical fibers Submarine cables are laid using special cable layer ships, such as the modern René Descartes , operated by Orange

Why Fiber Optic Prices Exploded from Early 2026

Conclusion: Navigating the 2025–2026 Fiber Price Crisis The dramatic surge in fiber optic cable prices from late 2025 into early 2026 is primarily driven by the explosive and sustained

Fiber Optic Expansion in East Africa: The Infrastructure

Across all five East African Community markets, the last-mile fiber gap creates entry points for well-capitalized regional ISPs willing to invest in

Fiber Optic Market Size, Share & Trends Analysis Report By Fiber Type (Glass, Plastic), By Cable Type (Single-mode, Multi-mode), By Deployment

Surfing the Fire Resistant Fiber Optic Cables Wave: Riding Market ...

The global "Fire Resistant Fiber Optic Cables market" is a dynamic and growing industry. By understanding the key trends, upcoming technologies, and growth opportunities, Fire Resistant Fiber ...

Evolution of Undersea Cables Connecting Africa: Key

Here's a breakdown of how undersea cables evolved around Africa, the major milestones, and the real-world impact on internet access and affordability.

Subsea Fibre

Liquid Intelligent Technologies is proud to announce the launch of its shortest terrestrial fibre route between the East to the West coasts of Africa, connecting

Latest Research on Double Tight Buffer Fiber Optic Cable Market ...

Double Tight Buffer Fiber Optic Cable is designed with a protective buffer surrounding the optical fibers, making it suitable for indoor applications where flexibility and durability are essential.

Fiber Optic Cables

CommScope designs and manufactures a comprehensive line of fiber optic cables—from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Multinational

The EASSy project is an initiative to construct and operate a submarine fibre-optic cable along the east coast of Africa to connect 20 coastal and land-locked countries to each other and to

Direct Buried Fiber Market Analysis 2026

Direct Buried Fiber Market Analysis The Direct Buried Fiber market focuses on optical fibers installed directly into the ground, avoiding the need for protective conduits.

Submarine Optical Fiber Cables Market by Deployment and Global ...

The Submarine Optical Fiber Cables market is currently experiencing significant trends shaped primarily by increased global internet traffic, advancements in technology, and geopolitical

€100 The EurAfrica Gateway Cable, connecting the EU with milli

With 12,000 kilometres of fibre-optic cables, the first of its kind backbone will span Central, Eastern, and Southern Africa, close regional “missing links” and address the quality, speed, and cost-effectiveness

Fiber Optic Cable Market Size, Forecasts Report 2026

The fiber optic cable market was estimated at USD 14.6 billion in 2025 and is expected to grow at a CAGR of 9.5% between 2026 and 2035, driven by

Home | 2Africa Cable

The 2Africa cable will be integrated into STC's MENA Gateway (MG1) datacentre in Jeddah, enabling customers to access our extensive international content and
