

Fiber optic quick connector self-assembly

Overview

SC Fast Connectors are pre-assembled, field-installable connectors used in fiber optic networks for quick and efficient termination of optical fibers without the need for specialized tools. Unlike traditional fiber optic terminations that require epoxy. A field installable factory pre-polished connector that utilizes the proven technology of mechanical splices to provide customizable connectivity solutions. The package contains installation instructions. □Material□Made of high performance materials, more durabler, resistant to high temperature and falling. The Carefiber Fast Connector series connectors are now available in FC, SC, and LC variants, catering for 250um to 900um diameter single mode and multimode fiber types, including Multi-mode 62. 5/125um and Multi-mode 50/125um. Designed to simplify the connection process, these connectors allow.
