

Fiber optic splice box with 4 outlets

Overview

This compact FTTH termination box features 4 adapter ports compatible with SC/APC connectors, supporting up to 4-core splicing and termination. It supports SC or LC adapters and enables easy connection between drop cables or indoor cable. Splice boxes and splice distributors are essential for a reliable fiber optic cabling system and serve as a connecting point between the fiber optic installation cable and the in-house network. It offers mechanical protection for fiber and pigtail management, integrates splice and termination in a compact form, and features user-friendly operation. Available with 1,2,4 fibres Pre-connectorized cable Multiple lengths available Easy to through tube Protection against any risk of interference with the laser beam Security in connection cord retention The reliability of the grip of the socket on the wall DIN rail mounted application Support fiber. This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It can effectively terminate, protect and manage the optical cable. It is a necessary equipment in network transmission.
