

German Galvanized Cable Tray Price List

AI Overview

German galvanized cable trays typically range from €20 to €100 per meter depending on size, type, and supplier. Overview of Pricing The cost of galvanized cable trays in Germany varies based on dimensions, material thickness, and design. For example, a standard 300 x 60 mm galvanized cable tray, 2 meters long, is available from suppliers like ekabel24, though the exact price must be requested directly from the vendor. Smaller or simpler trays may start around €20–€30 per meter, while larger, heavy-duty, or perforated trays can reach €80–€100 per meter. Factors Affecting Price Material and Coating: Hot-dip galvanized steel is common, providing corrosion resistance and durability. Stainless steel or thicker galvanized trays cost more. Tray Type: Ladder, perforated, or wire mesh trays differ in price. Wire mesh trays with quick-connect systems may be slightly higher due to ease of installation. Dimensions: Width, height, and length directly influence cost. Standard widths like 60–300 mm are more affordable, while custom sizes increase the price. Supplier and Certification: German manufacturers often provide CE-certified trays adhering to DIN and ISO standards, which can affect pricing. How to Obtain Exact Pricing Request a Quote: Many suppliers, including Eurostrut, Brilltech Engineers, and Jeetmull Jaichandlall, provide quotes based on project requirements. Consider Bulk Orders: Prices per meter may decrease for larger quantities. Check Online Webshops: Some suppliers allow direct online ordering or provide indicative prices for standard sizes. In summary, while typical German galvanized cable trays cost between €20 and €100 per meter, the exact price depends on size, type, and supplier. For precise pricing, it is recommended to contact manufacturers or distributors directly and request a quote tailored to your project specifications.
