

# How much do metal cable tray manufacturers charge

## AI Overview

Metal cable tray prices typically range from \$2 to \$25 per meter, depending on material, type, and order volume. Price Overview The cost of metal cable trays varies widely based on material, design, and supplier. For standard industrial applications:

- Galvanized steel trays: Most common, balancing durability and cost, typically \$2–\$15 per meter.
- Stainless steel trays: Corrosion-resistant, higher-end, around \$10–\$25 per meter.
- Aluminum trays: Lightweight and rust-proof, generally more expensive than steel, \$8–\$20 per meter.
- Plastic trays: Budget-friendly but unsuitable for heavy loads, \$2–\$10 per meter.

Tray type also affects pricing:

- Ladder trays: Support heavy cables, higher cost.
- Perforated trays: Cheaper, suitable for lighter loads.
- Wire mesh trays: Economical and flexible for small-scale installations.

Bulk orders or B2B purchases can significantly reduce per-unit costs, with prices ranging from \$0.80 to over \$76 per unit depending on size and material.

Factors Affecting Price

- Material and Coating: Hot-dip galvanized (HDG) or powder-coated trays cost more but offer better corrosion resistance.
- Size and Load Capacity: Wider or heavier-duty trays command higher prices.
- Supplier and Market: B2B suppliers like Atkore, Schneider Electric, Eaton, and Legrand offer bulk pricing and extended warranties.
- Installation and Shipping: Labor, equipment depreciation, and transport costs can add to the total project cost.

Recommended Suppliers

- Atkore International: Offers stainless steel and custom trays for industrial projects.
- Tradewheel.com: Global marketplace for customized cable trays at competitive prices.
- DirectIndustry: Connects buyers with sheet metal cable tray manufacturers and distributors.
- Ekabel24: Provides galvanized, stainless steel, and halogen-free plastic trays compliant with DIN EN 61537 standards.
