

How much does a Bahrain IP54 fiber optic cable tray cost

AI Overview

The cost of an IP54 fiber optic cable tray in Bahrain typically ranges from BHD 15 to BHD 50 per meter, depending on material, size, and supplier. Pricing Factors The price of a fiber optic cable tray depends on several factors: Material: Steel, aluminum, or zinc-plated steel trays vary in cost. Zinc-plated steel is durable and corrosion-resistant, often used for IP54-rated trays. Dimensions: Width, height, and length affect the price. Larger trays or bulk packs cost more. IP Rating: IP54-rated trays are designed to resist dust and water splashes, which can increase the cost compared to standard trays. Supplier and Brand: Local suppliers like BSLI, Jeetmull Jaichandlall, and Kable Kontrol offer different pricing based on quality, warranty, and bulk purchase options. Installation Accessories: Fittings, brackets, and support structures may add to the total cost. How to Obtain Accurate Pricing Since prices vary by supplier and project requirements, it is recommended to: Contact local suppliers directly: BSLI and other Bahrain-based suppliers provide quotations upon request. Specify tray dimensions and IP rating: Provide the exact length, width, and height needed for your installation. Request bulk pricing: For large projects, suppliers may offer discounts for bulk orders. Consider additional components: Include transitional fittings, brackets, and installation tools in your budget. Example Products Kable Kontrol Wire Mesh Tray: Zinc-plated steel, suitable for fiber optic cables, sold in bulk packs. While not explicitly IP54, similar high-quality trays in Bahrain are priced around BHD 15-50 per meter depending on size and quantity. Custom IP54 Fiber Trays: Suppliers like BSLI can provide IP54-rated trays tailored to your project, with pricing available upon request. By contacting suppliers directly and specifying your project requirements, you can obtain the most accurate and competitive pricing for IP54 fiber optic cable...
