

How much does molded cable tray cost in Saudi Arabia

AI Overview

Molded cable trays in Saudi Arabia typically range from SAR 150 to SAR 400 per meter, depending on material, size, and specifications.

Pricing Overview The cost of molded cable trays, such as FRP (Fiber-Reinforced Plastic) or GRP (Glass-Reinforced Plastic) trays, varies based on several factors: material type, tray dimensions, thickness, load capacity, and finish. Standard lengths are usually 2.44 m or 3.00 m, with special lengths available on request. Stainless steel or high-grade FRP trays generally command higher prices due to durability and corrosion resistance, especially in harsh environments like coastal or industrial zones.

Factors Affecting Cost

- Material:** FRP/GRP trays are more expensive than standard galvanized steel but offer superior corrosion resistance and lighter weight.
- Tray Type:** Ladder, perforated, or solid-bottom designs influence pricing; perforated trays may cost slightly more due to manufacturing complexity.
- Accessories:** Connectors, bends, reducers, covers, and clamps add to the total project cost.
- Compliance:** Trays meeting SASO, UL, ASTM, IEC, or NEMA standards may have higher prices but ensure safety and regulatory compliance.
- Quantity:** Bulk orders often reduce the per-meter cost, while small orders may be more expensive.
- Installation and Maintenance:** Labor, supports, and long-term maintenance should be factored into the overall budget.

Supplier Options Several suppliers in Saudi Arabia provide molded cable trays:

- Arabian Gratings:** Specializes in FRP/GRP trays with a wide range of accessories and custom lengths.
- Hitech Fence:** Offers heavy-duty cable tray systems suitable for industrial and commercial projects, including GI, HDG, and powder-coated finishes.
- Powertech International:** Supplies cable trays for industrial, commercial, and residential installations with easy installation and low maintenance designs.
- Mawaris:** Provides...
