

How to restart the aggregation switch device

Overview

Before you restart the device, click to save your settings to the start-up configuration file. Go to Advanced > Maintenance > Restart Device. Apply. I have tried power cycle (left off for half hour), reboot through the device screen and a reset (10 second hold and screen shows it is resetting). When ANY network lead is plugged into it at all it will refuse to reach full boot up. How to force restart and power cycle or reboot a Cisco Meraki MS425 Series Aggregation Switch system if it is frozen, not. The Ubiquiti UniFi Switch Aggregation (USW-Aggregation) is a powerful, high-capacity switch, perfect for streamlining and enhancing network performance. Unboxing: Carefully unbox. How to turn off safely UDM SE or Unifi aggregation switch if there is no option in the menu or physical button?

Just pull the power plug off?

Is it safe?

You can shut it down in the app or on the little touch screen.

Article Content

Why UniFi firewalls or switches does not have power off ...

The SE only has the option to reboot currently via the touch menu or ssh. They're designed to avoid corruption when pulling the plug, and the ubiquity warranty supports the action.
