

Huawei external optical cable model

Overview

SFP-25G-AOC-5M (02311MPD) is Huawei compatible 25G Active Optical Cable, operating over Multi-Mode Fiber (MMF), designed with total interconnection length up to 5 meter. 25G Active Optical Cable is equipped with MSA standard compatible SFP+ transceiver assembly at each end of cable. With Huawei's core concept for ODN construction centering on full and dense coverage coupled with short and easy access, Huawei's ODN 3.0 solution uses two transformative technologies to support five typical network scenarios. In the earliest FTTH solution, ODN 1.0 optical splitting was used for. Select from a broad range of Huawei Compatible active optical cables. AOC cables from HPC Optics are available with SFP+, SFP28, QSFP, QSFP28, or QSFP-DD connectors. This document describes the specifications for preparing, routing, and bundling cables and attaching labels to these cables.
