

Jamaica FOB Special Optical Cable 2 Cores

AI Overview

2-core single-mode optical fiber cables in Jamaica are available for indoor and FTTH applications, with specifications including 4.5mm OD, FRP reinforcement, and high durability for reliable data transmission. Cable Specifications The 2-core optical fiber cables suitable for Jamaica's telecom networks typically feature: Fiber Type: Single-mode (G.652.D) for long-distance, low-loss transmission .Outer Diameter (OD): Approximately 4.5mm for FTTH cables .Reinforcement: Two layers of Fiber Reinforced Plastic (FRP) and yarn for added durability .Indoor Use: Designed for indoor deployment, including wall conduits and patch panels .Temperature Range: Typically -20°C to +70°C, suitable for tropical climates .Bend Radius: Minimum 30mm during installation and in service to prevent signal loss . These cables are engineered for high-performance connectivity, ensuring reliable transmission for Internet, CATV, and telecommunications networks. Applications FTTH (Fiber to the Home) deployments. Telecom operator networks and ISP backbones. Indoor cabling for offices, data centers, and residential buildings. High-speed data transmission with minimal signal attenuation. Local Suppliers and Procurement Several verified suppliers and contractors in Jamaica provide optical fiber cables and installation services: Optronics Plus: Offers a range of single-mode and multimode fiber cables, including 2-core options with LSZH jackets and tight-buffered designs . Top Cabling Companies in Jamaica: Locations in Kingston and Saint Catherine provide cabling solutions, installation, and consulting services . Government Projects: The National Broadband Initiative (NBI) procures fiber optic cables for public infrastructure, including single-mode and multi-core cables, which may provide insights into local standards and approved vendors . Purchasing Considerations FOB Pricing: When sour...
