

Labor cost for installing power distribution boxes

Overview

A typical home replacement for a 100-125A indoor panel runs about \$1,200-\$2,500 in parts and labor; a 200A outdoor upgrade with new meter socket can reach \$3,000-\$6,000. Assumptions: standard conduit routing, existing wiring reachable within 10-30 feet, and a single dwelling. Buyers typically pay for a full panel replacement, including labor, materials, and permits. The article outlines cost ranges, per-unit pricing, and practical. The cost of a new panel box depends on the box size, meter/branch requirements, enclosure type, and labor for installation. The distribution box cost encompasses not only the initial purchase. Junction box costs range from low-price indoor models (\$10-\$60) to weatherproof units (\$70-\$450), with installation averaging \$100-\$300 depending on location and materials. For larger electrical jobs like installing wiring or replacing an electrical panel, expect to pay \$2,000 to \$6,000. Get free. In May 2026 the estimated national average cost to Install an Electrical Service Panel starts at \$1,305 - \$1,581 per panel. Use our Cost Calculator for cost estimate examples customized to the location, size and options of your project.
