

Ladder-type aluminum alloy cable tray manufacturer

AI Overview

Top aluminum alloy ladder cable tray brands include Husky, Snake Tray, Cablofil, EAE Electric, and Atkore, offering lightweight, corrosion-resistant, and high-load cable management solutions. Leading Brands and Features

Husky Ladder Cable Tray Husky offers aluminum ladder tray systems with two longitudinal side members connected by transverse rungs, designed for power and control cable support. Their trays are lightweight, UL-listed, CSA-certified, and easy to install compared to steel alternatives, making them suitable for industrial and commercial applications.

Snake Tray 653 Series Snake Tray provides lightweight, weather-resistant aluminum trays with high load capacities. They are designed for industrial environments, with widths ranging from 6 to 36 inches and vertical side rails from 3 to 7 inches, ideal for dense cable transitions.

Cablofil Cablofil is recognized globally for innovative cable management systems, including aluminum ladder trays, wire mesh trays, and prefab assemblies. Their products emphasize fast installation, durability, and reliable cable support in both indoor and outdoor settings.

EAE Electric EAE Electric's aluminum cable ladders combine high strength, flexibility, and lightweight design. They offer superior corrosion resistance, high thermal conductivity to prevent cable overheating, and long-term durability even in harsh environments, including saltwater exposure.

Atkore Aluminum Ladder Tray Atkore's C-Channel Swage Ladder trays feature two aluminum side rails with transverse rungs fastened via a swaging process. This ensures maximum mechanical and electrical connection, rigidity, and easy cable installation. They are UL-classified and meet NEMA VE-1 standards, suitable for high-vibration environments.

Key Considerations

Material Grade: Many high-performance trays use 6063-T6 aluminum alloy, offering marine-grade corrosion resistance and h...
