

Manufacturer of Cold Aisle Armor for Display Cases

AI Overview

Key manufacturers of cold aisle containment systems include Tate, Legrand, Eagle Aluminum, and Promera, offering customizable solutions for efficient airflow management. Tate Cold Aisle Containment Tate provides Cold Aisle Containment (CAC) systems designed to capture cold air efficiently and maintain optimal temperatures for equipment. Their systems are custom-engineered to fit any layout, with options for single or double doors, sliding or hinged panels, and robust aluminum frames with polycarbonate panels. Tate's solutions are tailored to raised floor environments and can be configured to match specific aisle dimensions, ensuring precise containment and improved cooling efficiency (Tate Global) .Legrand Legrand offers modular cold aisle containment systems that create enclosed corridors in front of server cabinets or display cases. Their systems focus on superior cooling efficiency, reducing energy waste and maintaining uniform temperatures. Legrand's solutions are flexible and scalable, allowing adaptation to various facility sizes and layouts, which is ideal for both new installations and retrofits (Legrand) .Eagle Aluminum Eagle Aluminum specializes in custom and OEM aluminum extrusions for hot and cold aisle containment. They manufacture aluminum tubing, panel frames, and connectors for containment walls, thermal drop panels, and barrier panels. Eagle Aluminum provides bespoke solutions for airflow management, ensuring precise cooling performance and long-lasting durability. Their products are suitable for both data centers and refrigerated display cases, with a focus on high-quality aluminum alloys and engineered connectors (Eagle Aluminum) .Promera Promera offers a range of aisle containment systems, including softwall curtain systems, hardwall systems, and hybrid solutions. These systems are designed to isolate cold and hot sides of e...
