

Middle East Micro-Module Data Center Company

AI Overview

Key manufacturers of micro and modular data centers in the Middle East include METCO, Schneider Electric, and other regional and global providers offering scalable, rapid-deployment solutions. Leading Manufacturers METCO is a prominent Middle East-based provider specializing in turnkey modular, prefabricated, and micro data centers. Their solutions focus on rapid deployment, scalability, and operational efficiency. METCO also offers Data Center Infrastructure Management (DCIM) systems and pre-terminated cabling to streamline installation and reduce downtime. They have delivered projects for government and financial institutions, including the Ministry of Information in Kuwait, the Credit Bank of Iraq, and the National Bank of Kuwait. Schneider Electric provides EcoStruxure™ modular data centers, which are factory-built, scalable, and designed for rapid deployment in diverse environments. Their solutions integrate power, cooling, and IT infrastructure into pre-engineered modules, supporting AI workloads and edge computing. Schneider Electric emphasizes predictable performance, energy efficiency, and adaptability to complex infrastructure requirements across the Middle East. Other notable global players active in the region include Northstar Enterprise + Defense, which delivers modular and mobile systems for enterprise, telecom, and government applications, and Durata, which offers end-to-end turnkey solutions from compact micro data centers to containerized systems. These companies focus on energy-efficient designs, advanced cooling, and rapid deployment, making them suitable for smart city projects, 5G edge computing, and hybrid cloud integration. Market Trends The Middle East micro and mobile data center market is growing rapidly, driven by digital transformation initiatives, smart city projects, and 5G deployment. Micro modular d...
