

Network security equipment manufacturer in Southern Europe

AI Overview

Southern Europe hosts several distributors and European cybersecurity vendors, including Belp in France and European vendors like MikroTik, AVM, and Sophos, which provide network security solutions across the region.

Key European Vendors Serving Southern Europe

- MikroTik:** Offers powerful routing solutions suitable for enterprise environments, with software developed in Europe and compliance with EU data protection standards, widely used across Southern Europe for network infrastructure and security management.
- AVM (Fritz!Box):** Provides networking hardware for small businesses and residential setups, with European software development and privacy compliance.
- Sophos:** Delivers advanced network security appliances, including firewalls and unified threat management systems, with regular security updates and adherence to EU privacy standards.

Distributors and Integrators in Southern Europe

- Belp (France):** Headquartered in Paris, Belp specializes in network and security infrastructure products, offering a broad portfolio of technologies from leading market brands. They provide full support and services for resellers and integrators across Europe, including Southern European countries.
- Asset Security (France):** Designs and distributes security systems including video surveillance, access control, and intrusion detection, and is part of the Dutch TKH Group, reinforcing its presence in Southern Europe.
- Agelec and Agix (France):** Distribute video controllers, servers, cameras, and software solutions, supporting network security and monitoring applications in Southern Europe.

Considerations for Southern European Procurement

While many European vendors design and maintain software in Europe, manufacturing often involves global supply chains, with components sourced from Asia or the US. The key advantage of these vendors is European software developm...
