

Niger Fiber Optic KVM Seating System Manufacturer

AI Overview

For fiber optic KVM systems in Niger, Matrox and ATEN offer high-performance solutions, while SEGASit provides premium seating systems for auditoriums and conference centers. Fiber Optic KVM Systems Matrox offers a range of fiber-optic KVM extenders suitable for mission-critical applications, including control rooms, broadcast studios, and media production environments. Their Extio 2 Series supports multi-monitor setups with resolutions up to 2560x1600 at 60Hz over single-mode or multi-mode fiber, and can extend USB, audio, and video signals reliably over long distances. The Extio F2408 model allows quad-monitor support, while the F2208 supports dual monitors, making them ideal for complex workstations. ATEN provides scalable KVM solutions that consolidate keyboard, video, and mouse connections, supporting remote management of servers and computers over fiber or Cat 5/6 networks. Their enterprise-class KVM over IP solutions allow control of multiple systems from a single console, with high-resolution video support and flexible expansion options. Other suppliers, such as KVM Switches Online, offer single-mode and multi-mode fiber KVM extenders for dual or triple monitor setups, suitable for extending signals over long distances in professional environments. Seating Solutions in Niger For auditorium and conference seating, SEGASit, a Turkish manufacturer and European supplier, is active in Niger. They specialize in fixed seating furniture for auditoriums, theaters, cinemas, conference rooms, and educational institutions. A notable project is the Mahatma Gandhi International Convention Center in Niamey, where SEGASit installed 2,619 Metro model auditorium seats, combining comfort, durability, and style. Their product range includes cinema seats, theater seats, church auditorium seating, and conference chairs, tailored to meet the specific needs of large venues. Summary Fib...
