

# North Macedonia Mesh Cable Tray Wholesale Price List

## AI Overview

Mesh (wire basket) cable trays in North Macedonia typically cost between \$2 and \$25 per meter, depending on material, size, and finish. Price Range and Factors The cost of mesh cable trays varies based on several factors:

- Material:** Pre-galvanized steel is the most affordable, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties.
- Type and Size:** Wire mesh trays are generally cheaper than ladder or perforated trays and are ideal for lightweight cabling in offices or data centers.
- Coating and Finish:** Hot-dip galvanized (HDG) trays cost more than pre-galvanized trays but offer better durability outdoors.
- Supplier and Quantity:** Bulk orders or project-based purchases can reduce the per-meter cost.

Local suppliers in North Macedonia, such as Jeetmull Jaichandlall and Brilltech Engineers, offer competitive pricing and customized solutions.

**Additional Costs:** Installation, shipping, and labor can affect the total project cost, though mesh trays are easier and faster to install than conduit systems, potentially saving 40–60% on overall wiring costs.

**Practical Considerations** Mesh cable trays are lightweight, easy to cut, and flexible for routing cables around corners, making them suitable for data centers, offices, and commercial buildings. They also allow better airflow around cables, reducing heat buildup compared to enclosed conduits.

For a typical project in North Macedonia, you can expect \$2–\$10 per meter for standard pre-galvanized mesh trays, while aluminum or stainless steel trays may range \$15–\$25 per meter, depending on specifications and supplier. Contacting local suppliers directly can provide exact quotes based on your project size, material preference, and delivery requirements.
