

Oman Plastic Cable Tray Specifications

AI Overview

PVC cable trays in Oman are made from high-quality polyvinyl chloride, offering corrosion resistance, durability, and versatile configurations for industrial, commercial, and residential electrical installations.

Material and Durability PVC cable trays in Oman are manufactured from high-grade polyvinyl chloride (PVC), which provides excellent resistance to corrosion, moisture, chemicals, and UV exposure, making them suitable for Oman's hot, humid coastal areas and arid inland regions. The lightweight nature of PVC allows for easy handling, cutting, drilling, and on-site installation, while maintaining long-term structural integrity.

Types and Configurations PVC cable trays are available in several configurations to meet different installation needs:

- Ladder Type:** Features two parallel side rails connected by transverse rungs, allowing optimal airflow and heat dissipation. Ideal for heavy-duty power distribution, substations, factories, and outdoor cable runs.
- Perforated Tray:** Continuous bottom with evenly spaced holes for moderate airflow and cable protection, suitable for commercial buildings, HVAC systems, telecom rooms, and indoor risers.
- Solid Bottom Tray:** Fully enclosed base providing maximum protection against dust, moisture, debris, and pests, recommended for sensitive wiring and clean environments.

Dimensions and Load Capacities Local manufacturers in Oman, such as Gersan Elektrik and Albustan Technical Supplies, offer a wide range of widths, thicknesses, and heights to accommodate various cable loads and installation requirements. Ladder trays are typically designed for heavy-duty industrial applications, while perforated and solid trays are used for light to medium-duty installations.

Standards and Compliance PVC cable trays in Oman are manufactured in accordance with international standards to ensure safety, reliability, and compliance with electrical regulations. They are suitable for industrial, commercial, and residential projects, including oil refineries, chemical plants, military facilities, and d...
