

Outdoor optical cable two cores

Overview

A **2 core outdoor fiber optic cable** contains two optical fibers housed within a protective sheath engineered to withstand harsh weather conditions, UV exposure, moisture, and mechanical stress. Broadstick provides high quality fiber optic cables compliant with TIA 568-C. This Outdoor Single mode FTTH Drop Fiber Optic Cable provides a proper connection for FTTH networks, the operation is simple; the use is more convenient, greatly improving the working efficiency. The. It is suitable for both indoor and outdoor applications. applications where multiple bends are present. These light weight units and have excellent crush and impact resistance. Among the many types available, the **2 core outdoor fiber optic cable** stands out for its balance between performance, simplicity, and cost-effectiveness.
