

Painting touch-up for photovoltaic distribution boxes

Overview

Touch-up paint provides a way to cover scratches and exposed enclosure material to maintain corrosion protection. The allure of solar paint lies in its potential to democratize solar energy, making it accessible and integrable into virtually any structure, paving the way for a truly sustainable energy future. However, the path to widespread adoption of solar paint is not without its hurdles. Convenient for on-site touch-ups. Recycled cardboard content is minimum 70% (50% in US). Protects. Please upgrade for pricing details.
