

Price List of Cable Tray Manufacturers in Taiwan

AI Overview

Taiwanese cable trays typically range from \$10 to \$100 per meter depending on material, type, and configuration.

Price Range by Material and Type

PVC Cable Trays: These are the most budget-friendly option, lightweight, corrosion-resistant, and suitable for indoor or harsh environments. Prices generally start around \$10-\$25 per meter for standard sizes and configurations.

Pre-Galvanized Steel (PG): Affordable steel trays coated with a thin zinc layer, ideal for dry indoor areas. Costs typically range from \$20-\$40 per meter.

Hot-Dip Galvanized Steel (HDG): More durable for outdoor or industrial use, with a thicker zinc coating. Prices are higher, around \$35-\$60 per meter.

Aluminum Trays: Lightweight and corrosion-resistant, suitable for long spans and reduced support requirements. Prices usually range from \$50-\$80 per meter.

Stainless Steel Trays: Premium option for hygienic or corrosive environments, such as food plants or coastal areas. Costs can exceed \$80-\$100 per meter.

Factors Affecting Cost

Material: Steel, aluminum, and stainless steel vary significantly in price due to raw material costs and durability.

Tray Type: Ladder, perforated, or wire mesh designs influence both material usage and labor for installation.

Size and Configuration: Wider or deeper trays, bends, and custom fittings increase the total cost.

Installation Location: Indoor vs. outdoor, or industrial vs. office settings, may require different coatings or supports, affecting price.

Supplier and Brand: Taiwanese manufacturers like Jeetmull Jaichandlall, YEOU CHERNG, and others offer competitive pricing, often with bulk discounts for EPC projects.

Summary

For a typical project, PVC trays are the most cost-effective, while stainless steel trays are the most expensive. When budgeting, consider both the material cost and installation labor, as cable trays are generally faster and cheaper to install than conduit systems. For precise pricing...
