

Price of Basket-Type Cable Trays

AI Overview

Wire mesh or basket-style cable trays typically range from \$15 to \$272 per section, depending on size, material, and brand.

Overview of Pricing

Small under-desk trays: Compact wire basket trays for home or office use generally cost \$15–\$40 per tray, with dimensions around 12–18 inches in width and 4–6 inches in depth, often made of metal mesh or steel with a powder-coated finish (Walmart, B&H, Amazon).

Standard 5–10 ft wire mesh trays: Industrial or commercial-grade trays, typically 5–10 feet long, 4–6 inches deep, and 6–12 inches wide, are priced between \$26 and \$100 per section, depending on material (galvanized steel, zinc-plated, or powder-coated) and brand (Cablofil, Kable Kontrol, Cableties and more).

Heavy-duty or wide trays: Larger trays for high-capacity cable runs, such as 10 ft long and 18 inches wide, can cost \$100–\$272 per section, suitable for data centers, industrial facilities, or large commercial installations (Grainger, Cable Organizer, Legrand).

Factors Affecting Price

Material: Galvanized steel, zinc-plated steel, or powder-coated finishes increase durability and corrosion resistance, which raises the cost.

Length and Width: Longer and wider trays support more cables and are priced higher.

Brand and Certification: Premium brands like Cablofil, Legrand, and Eaton often include UL or NEC approvals, which can increase price.

Accessories: Brackets, splice kits, bends, and hangers are sold separately and can add \$5–\$50 per component depending on type and size.

Practical Considerations

For home or office setups, under-desk trays around 12–18 inches wide are cost-effective and priced under \$40. For industrial or commercial installations, 10 ft sections of 6–18 inch wide wire mesh trays are more suitable, with prices ranging from \$50 to \$272 per section. Always consider support brackets and installation hardware, which may be required every 5 feet for stability, adding to the total cost. By comparing dimensions, material, and brand, you can select a cable basket tray that fits both your budget and installation requirements.
