

Price of Cambodian Cable Trays

AI Overview

Cable tray prices in Cambodia vary widely depending on material, type, and supplier, with GI, PVC, and aluminum trays being the most common options. Factors Affecting Cable Tray Prices in Cambodia

Material Type

- Galvanized Iron (GI) trays:** Durable, corrosion-resistant, and suitable for industrial environments. Typically more expensive than PVC but offer long-term reliability and low maintenance.
- PVC trays:** Lightweight, rust-resistant, and cost-effective. Ideal for indoor applications and data centers, with lower installation costs.
- Aluminum trays:** Corrosion-resistant and lightweight, often used in harsh climates, slightly higher in price than GI for premium applications.

Tray Design and Configuration

- Ladder trays:** Common in construction and industrial projects; provide strong support for heavy cables.
- Perforated trays:** Allow ventilation and easier cable management; slightly higher cost due to manufacturing complexity.
- Wire mesh trays:** Flexible and lightweight, suitable for complex routing; pricing depends on mesh density and size.

Size and Load Capacity

Larger trays or those designed for heavy-duty loads cost more due to increased material usage and structural requirements.

Accessories and Installation

Bends, risers, reducers, and tees add to the overall cost. Custom-fabricated accessories for ladder or perforated trays can increase processing prices. Installation complexity, labor, and local regulations also influence the final cost.

Price Range Guidance

While exact prices are not publicly listed, Cambodian suppliers indicate that GI and aluminum trays are generally mid-to-high range, while PVC trays are budget-friendly and suitable for smaller projects or indoor installations. For precise pricing, contacting local suppliers such as Super Cable Tray Pvt. Ltd., Jeetmull Jaichandlall, or PVC Cable Tray Manufacturers in Cambodia is recommended.

How to Obtain Quotes

Direct Supplier Contact: Reach out via email or phone to request a quote based on tray type, size, and quantity.
