

Price of Low-Loss Transparent Optical Cable for FTTH in Malaysia

AI Overview

Pricing for low-loss transparent FTTH optical cables in Malaysia varies by supplier, fiber type, and quantity, typically requiring direct quotes from distributors.

Overview of Transparent Optical Cables for FTTH

Low-loss transparent optical cables are designed for indoor FTTH (Fiber to the Home) and FTTR (Fiber to the Room) installations, offering minimal signal attenuation and high flexibility. Common specifications include:

- Fiber Type:** G657B3 or G657A2 single-mode fibers, optimized for tight bending and low loss.
- Diameter:** Ultra-thin 0.9mm, allowing easy installation along walls, ceilings, or behind furniture.
- Jacket Material:** Nylon or PVC, providing durability, flexibility, and resistance to environmental stress such as humidity and temperature fluctuations.
- Installation Features:** Many cables are self-adhesive or “invisible,” reducing the need for drilling, brackets, or structural modifications.

Suppliers and Availability in Malaysia

- Alibaba:** Offers CE-certified G657B3 transparent optical cables for indoor FTTH/FTTR use, emphasizing low loss and 0.9mm diameter.
- ClusterAsia:** Provides ultra-thin 0.9mm Nylon PVC self-adhesive transparent fiber optic cables suitable for residential and commercial installations, supporting gigabit speeds.
- Made-in-China (Sinet-Link):** Supplies invisible optical cables with tight-buffered G657B3 fibers, designed for easy indoor installation without affecting interior aesthetics.
- Luleey:** Offers G657A2 indoor transparent fiber optic cables with low loss and good flexibility for ultra-long distances.
- element14 Malaysia:** Stocks a range of fiber optic cables for high-speed data transmission, but pricing is not listed online and requires contacting customer service for quotes.

Pricing Considerations

- Unit Price:** Typically depends on fiber type, cable length, and quantity.
- Ultra-thin, low-loss transparent cables may cost more than standard indoor fiber du...
